DENTIS MINI IMPLANT
I-FIX

This course will provide comprehensive training in utilization of reduced diameter implants in removable and fixed prosthodontic cases for dentists to incorporate into their practice. This course will provide foundation for clinicians in both surgical & prosthetic phases of reduced diameter implant dentistry for predictable outcomes.

Course Objectives

Participants will learn to:

1. Diagnose & Treatment Plan for the patient for reduced diameter dental implants.
2. Recognized advantages of I-Fix mini dental implant system, including indications and contraindications.
3. Participate in laboratory hands-on for surgical and prosthetic phases of I-Fix system.
4. Familiarize with both removable & fixed restorative options available with I-Fix implant system.
5. Make removable prosthesis with predictable and good long term outcomes.
6. Optimize communication with dental laboratories.
- 7.

Day 1: Lecture

- Diagnosis and Treatment Planning of Patients
- Radiographic and CT Scan Evaluation of Patients
- Hard and Soft Tissue Considerations
- Occlusal Considerations

Course Instructor

Dr. Thomas K. Lee, a distinguished dentist, earned his BA from Northwestern University and DDS from the University of Illinois College of Dentistry. With Hospital Dentistry Residency and Advanced Prosthodontics Residency from Valley Medical Center and UCLA/WLA VA, respectively, Dr. Lee is an Associate Clinical Professor at UCLA School of Dentistry. He directs the UCLA Venice Dental Center and AEGD programs, maintaining a private practice in Los Angeles. Recognized for expertise in full mouth reconstructions, Dr. Lee leads study clubs in Southern California. Cherishing personal connections with his patients, he values the positive impact his work has on their lives, striving for excellence in every aspect of his dental practice.
