4 DAYS IMPLANT PROSTHETIC COURSE :

- Session 1 : Occlusion
- Session 2 : Fundamental
- Session 3 : Intermediate
- Session 4 : Advanced

COURSE OVERVIEW

From composite fillings to single crowns to multiple unit bridges to implant restorations, achieving predictable high-end restorative practice can be challenging for any dental practitioner. For cosmetic cases, full mouth reconstructions, partial/full dentures and implant restorations, understanding the particular patients' occlusion is most critical for the successful outcome of the case. Yet, most dentists are not satisfied with the occlusion knowledge they got from dental school or usual continuing education courses. Dr. Lee will help you answer the following questions.

Basic-Advanced★★★ | Max Attendees: 20

📅 DATE	📍 LOCATION	📅 COURSE SCHEDULE	🎓 TUITION
June 21 & 22 July 12 & 13, 2024	33530 1st Way S. Federal Way, WA 98003	<ul style="list-style-type: none"> • 8:30AM : Registration • 9:00AM - 5:00PM : Lecture & Hands-on <small>*Light pastries & coffee for breakfast and lunch are included.</small>	Each Session: \$400 All 4 Sessions \$1,200

Session 1: Occlusion | June 21, 2024 (Tuition: \$400/ *This is a prerequisite course.) **7 CEUs**

From composite fillings to single crowns to multiple unit bridges to implant restorations, achieving predictable high-end restorative practice can be challenging for any dental practitioner. For cosmetic cases, full mouth reconstructions, partial/full dentures and implant restorations, understanding the particular patients' occlusion is most critical for the successful outcome of the case. Yet, most dentists are not satisfied with the occlusion knowledge they got from dental school or usual continuing education courses. Dr. Lee will help you answer the following questions.

- What is ideal occlusion?
- Can you describe its rationale for The particular patient at hand?
- Does canine or anterior guidance Apply to everyone?
- If yes, or no, when, why & how?
- What is canine guidance?
- What about group function? Why? When? How?
- Do you know how to deliver an ideal Hard acrylic occlusal orthosis (Splint / night guard)? With what occlusal design? Why? When? Where?
- What are the differences between teeth & implants in occlusion?
- Is there anything else? Yes!!! Much more!!!

Session 2: Fundamental | June 22, 2024 (Tuition: \$400) 7 CEUs

- Implant Prosthetic Terminology & Component Review
- Crown Type Selection (Screw Retained vs Cement Retained)
- Abutment Selection (Prefabricated vs Custom/Metal vs Zirconia vs Other)
- Impression Technique (Close Tray vs Open Tray / Pick up vs Transfer / Link or No Link)
- Single Anterior & Posterior Implant Crown (Treatment Planning / Insertion Technique / Occlusion)

Session 3: Intermediate | July 12, 2024 (Tuition: \$400) 7 CEUs

- Case Selection & Protocol for Immediate Loading of Single Implant Crowns
- Multiple Implant Crowns (Treatment Planning / Cement Retained vs Screw Retained / Splinting vs Individualizing / Path of Insertion Issues & Techniques / Proximal & Soft Tissue Contacts / Occlusion in Centrics & Excursives)
- Implant Over-Dentures (Implant Supported vs Implant Retained / Occlusion in Centrics & Excursives / Impression & Delivery Techniques / Communication with Laboratories / Treatment Planning Full vs. Partial Dentures)

Session 4: Advanced | July 13, 2024 (Tuition: \$400) 7 CEUs

- Digital Treatment Planning & Executing
- Treatment Planning Fixed Full Arch Restorations (...all-on-X / ... as Crowns & Bridges / ...as Fixed Hybrid Dentures)
- Immediate Loading Techniques & Materials
- Final Restoration Delivery Techniques & Materials
- Trouble Shooting Prosthetic Complications (Loose Screws & Abutments / Porcelain & Resin Chipping & Breakage / Food Entrapments)

COURSE PRESENTER

Dr. Thomas K. Lee

- Associate clinical professor
UCLA School of Dentistry
- Lee family endowed chair
- Director, wilson-jennings-bloomfield
Ucla venice dental center
- Director, aegd residency programs
- Director, restorative advanced
Clinical training program

Professional Memberships

- American Dental Association
- California Dental Association
- Western Los Angeles Dental Society
- American College of Prosthodontists
- Pierre Fauchard Academy

Dr. Thomas K. Lee grew up in the Chicago area and received his BA from Northwestern University in Evanston, IL, followed by his DDS from the University of Illinois, College of Dentistry in Chicago, IL. He completed his Hospital Dentistry Residency training in Fresno, CA, at the University Medical Center. He practiced as a general dentist in Sacramento, CA for a year before furthering his training at the UCLA School of Dentistry in Advanced Prosthodontics.

Educational & Professional Background
