Learn, Serve and Thrive!

Our Mission and Values

At GDIA, we are committed to promoting excellence in dental implantology. We strive to provide the highest quality education and training, enabling dentists to deliver exceptional care to their patients.

Our Team of Experts

GDIA faculty consists of experts in the field of dental implantology. With years of experience and a passion for teaching, we are dedicated to helping dental professionals succeed in their journey towards becoming skilled Dentists in implant dentistry.

Our Innovative Approach

GDIA adopts a hands-on learning approach, combining theoretical knowledge with practical experience. We utilize state-of-art technology and techniques to ensure students are well prepared to handle any implant cases with confidence.

Dr. Jeon's 2024 Seattle Course Topic:

Full Mouth Rehabilitation Course

1. Understanding of Full Mouth Rehabilitation
2. Sequence of Full Mouth Rehabilitation
3. Understanding All on X
4. Organizing Vertical Dimension and Immediate Loading

Course Objective

Understanding the core principles of full-mouth rehabilitation is vital. The wealth of knowledge gained over two decades of practicing implant dentistry and undergoing numerous courses provides invaluable insights into various procedural aspects. Full-mouth rehabilitation represents the pinnacle of this wealth of knowledge accumulated through years of dedicated practice in implant dentistry.

I will be using data to logically introduce how you can easily achieve full mouth rehabilitation using the Dentis SQ implant with both analog and digital approaches.

Through examining all the processes encountered in full mouth cases, I hope our time together can help us understand what attitude we should all take for implant treatment.
