

Live-Patient Surgical Training

34 CEU

Nov. 20-24
2024

Puerto Vallarta, Mexico

Dr. Joseph Yang

Dr. Christopher Petrush

Dr. Kevin Kim

Dr. Kwan Lee

ABOUT THE COURSE

This dental **implant training program** is designed for dental clinicians to be able to place and perform advanced implant surgery under close supervision on patients in Puerto Vallarta.

GDIA offers three levels of Dental Implant Surgical Training:

- Fundamental
- Intermediate
- Advanced

All levels will cover everything from diagnosis, treatment planning, and live surgery. This course is limited to 10 doctors as we maintain a 2:1 ratio of participants to instructor

During the program, you will perform surgery on patients under the direction of top clinicians from our faculty members.

All patients and cases will be selected and pre-screened by GDIA faculty before the program.
