** Expand Your Experience: Additional Implant Placements Available for \$500 Each.

📍 34616 11th St., PL S
Federal Way, WA 98003

Dr. Janice Wang
DDS

Dr. Kevin Kim
DDS, FGDIA

Education:

- 1992-1995-University of the Pacific School of Dentistry, San Francisco Completed Doctor of Dental Surgery Degree
- 1988-1992-University of California, Davis Completed Bachelor of Science Degree in Animal Physiology
- Once exposed to the benefits of implant dentistry, she became eager to focus her career on this area. Early on, it was evident to her that to become good at implant dentistry, one must be good at grafting. By learning bone management and augmentation, one can accomplish great things with implants
- With over 2,000 placements to-date, and hundreds of grafting cases, her experience is comprehensive.
- Additionally, by purchasing a practice that was already focused on placing implants, she has been exposed to a large variety of manufacturers and is able to troubleshoot many of the older implant systems.
- Wang has performed all types of advanced procedures including socket grafting, ridge augmentation and sinus augmentation (crestal and lateral approach). She is able to tackle problematic situations that sometimes arise from implants and prosthetic components placed long ago, as well as take corrective measures for non-ideal placements.

Dr. Kevin Kim received his undergraduate degree in psychology from the University of California San Diego. He attended the University of Southern California to obtain his Doctorate of Dental Surgery.

Dr. Kim is a graduate of the Kois Center, has completed courses on advanced bone grafting at the Pikos Institute, took a nine-month implant training program at the Misch International Implant Institute, trained in the use of Puros block allograft, completed implant training at The Zimmer Institute, and completed an IV sedation course. All of the time he has spent learning new things and keeping up to date on current technology directly influences the care he is able to give his patients.

Professional Memberships

- American Dental Association
- Academy of General Dentistry
- International Congress of Oral Implantologists - Fellow
- Misch International Implant Institute - Fellow
- Academy of Osseointegration
- Chao-PST trained
- Pierce County Dental Society-Board of trustees

continued Dr. Janice Wang CV

- From running an implant study club to mentoring novice dentists, Dr. Wang can help accelerate your knowledge and experience by teaching you to avoid implant complications and setbacks.
- Wang has been retained as expert witness for implant defense cases and holds membership in the CCDS,CDA,ADA and AAID.
